

Single Maps

Mods consisting of one level. If anyone reading knows of other mods that aren't listed here, feel free to @ the writer on Discord.

The star symbols indicate the difficulty of the levels. Levels with no rating either haven't been played by the page author or he simply doesn't remember.

Mods either have a link to the Bethesda website or Nexus if they haven't been already uploaded to the Mod Portal.

(*) indicates mods that haven't been ported to the Mod Portal yet.

(***) indicates mods that existed at one point but the files aren't available anymore.

Difficulty and length of the levels are **subjective** to the page author, depending on the player they might feel more or less difficult/long
